Dear Andy,

I have not been givin papers to write since Monday 31 of Jan for a problem I had with Medows so, the CO had suspended all my priviledges for a week. As a respond to that I have not been in compliance with the Court order.¹ Today Feb 12th I have received a letter stating that legal mail is not a priviledge and it will not be suspended. For the record this is what they have done to me since the 31st.

- 1 - No more recreation - inside or outside.
- 2 - they do not give toothpaste nor toothbrush
- 3 - they took the toilet paper, they give me some only for when using the bathroom, and sometime in Medows shift they do not so, I used my socks, shirt and sweatshirt to clean myself.²
- 4 - they stop the water from my cell, it I need water I ask for ti and they give 1/3 of a copy 6 oz. Because they will not give me water to wash for my prayer, water only to drink so, I wash with 1/3 of the 6 oz. cup - if this is not crusade, then what is.
- 5 - they took the clock which was taped to the window of my door, and they miss a lot of my prayer call and sometimes they lie.
- 6 - they took my shoes, now I am walking with my socks - of course if they are clean.
- 7 - my toilet has been drained, so when I go #1 or 2, it would stay for ½ to 2 or e hrs then they will take me out of the cell to flush it.³

¹The revised procedure for consel access to me.

²I have done other things, I will tell you when I see you.

³The urine will stay all night long until the morning.

- 8 - Before I used to write unlimited Red Cross messages now they tell me only 2 letters & 4 postcards a month. Please contact Red Cross for that.
- 9 - The doctor for unknown reason to me has put me on neurontin as long as I am in here. Even though he said to me before this is a temporary not a solution. I guess the navy temporary is different than ours. So, please send me a print out of something that tells me what are the side effect of it, b/c I am having a continuous headach - They will not solve the problem but only the symptoms.
- 10 - for the last two days I have been having a migrating headach from the medicin & from a smell in my cell comes from the vent, smell like a car exhaust - first carbon oxide - a poisons gas. And when I get out of my cell, I do not smell it, when I go to shower I don't smell it, when they move me to other cell I don't either. I told them about it but they do nothing about it. So, I stuffed the vent with food.

I have been having fun for the last 17 days more than the whole 18 months I have been here.

Of course as a respond to all what they have done to me above, I responded with my own rules.⁴

Since they had took all priviledges, I can do, say anything I want - almost anything -. I am having more fun now than when I have my priviledges. You see they can not - & with Allah will - will not win with a muslim who knows his religion & has the support of his Lord.

My medical condition - the tingling - is getting worse, I assume because no shoes, walking on the concrete, b/c my feet & my private area are tingling more now. I used to take neurontin only once a day, now three times with tylone.

My eyes, they made some test and they told me my eyes are OK, all symptoms I am experiencing (flickring, spot lights when I close my eyes and white spots on color thing sometimes) are normal for my age. So, please make sure you write those letter I told you before b/c I feel

⁴ Which is non compliance with all rules, unless I think it is for their safety, that does not include throwing water with urine from the toilet on Meadows face, the whole 6 oz. on his chest & face.

something will happen to me. I want to make sure every thing is documented.

I have not received any mail from you nor Mark, even though I asked them about it, they said we received nothing. So, this letter before I see any of your letters or Mark.

P.S.: 1. I am making them working good for their salary.
2. Please convey my regards to Larry & Mark.
